

Symposium hosted by Network for Plant Breeding by Genome Editing “ Leaders pioneering food tech markets with biotech innovations ”

This symposium provides an opportunity to learn about the new market possibilities offered by the innovation of breeding by biotechnology (genome editing). Each speaker talks about why they started the business, what products they are improving with biotechnology, what opportunities they will see in the future and a piece of advice to the target audience.

Co-Organizers:

Sponsorship: Network for Plant Breeding by Genome Editing

Cosponsorship: OPERA, JASTA, JBA, CBIJ, ASTA

Venue: Online (Zoom webinar)

Date: 13:00-17:00, December 18, 2024

Application: from the following URL, apply by 17 Dec.

https://zoom.us/webinar/register/WN_dCliF1bsSRqbn3H5Pqw8uQ
